

Immediately know when your guards enter the water.

LEA+
LIFEGUARD ENTRY ALERT SYSTEM

Meet LEA.

LEA (Lifeguard Entry Alert) system automatically alerts your facility should a lifeguard have to enter the water.

The system uses small small, lightweight wireless Lifeguard Tags which easily and securely attach to your guards' clothing or equipment.

LEA can monitor up to to 10 Lifeguard Tags and is designed to work with or without our WAVE drowning detection systems.

Contact us today at info@wavedds.com to schedule a one-on-one Zoom call to learn more.

LEA

LIFEGUARD ENTRY ALERT SYSTEM

Gives your aquatics team the tools they need to succeed.

If any of your guards wearing Lifeguard Tags enter the water for any reason, LEA will immediately alert your facility via a flashing strobe light, adjustable-volume speaker, and remote notifications*

* WiFi required. Subscription plan may apply.
